

Product information Canopy system Boom

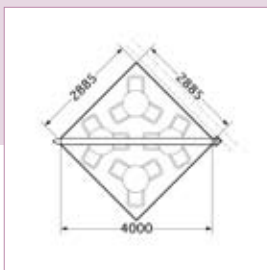

The new, innovative Shading System.

The fashionable option for a sunshade. In function and design a real unique shading system with Mediterranean atmosphere. Here you will find the most comfortable places on a hot summerday: refreshing – dreaming – relaxing – looking for wide open spaces ... on a terrace, in the garden, next to a pool or in a pavement café. Universally applicable due to wall or stand installation.

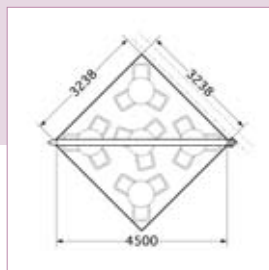

boom 1 = 8,5 m²:

For corners, recesses and smaller seating arrangements.

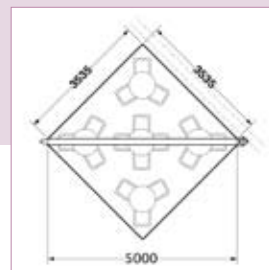

boom 2 = 11 m²:

For the garden, terrace, loggia or the pool area.

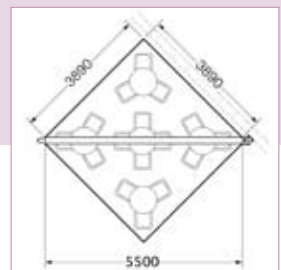

boom 3 = 13,5 m²:

For wellness areas, cafés or parks.

boom 4 = 16 m²:

For bars or restaurants.

Stand colours

Anodized profile in E6/EV1 in outside quality 25 µ (sea water proofed).

Standard design: End caps and arm bearings in RAL 9006.

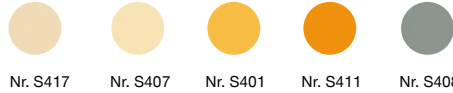

"Marine" design: End caps and arm bearings made of polished metal, marine.

Model	boom 1	boom 2	boom 3	boom 4
Tilt-out	4000 mm	4500 mm	5000 mm	5500 mm
Width	2885 mm	3238 mm	3535 mm	3890 mm
Weight	125 kg	133 kg	141 kg	149 kg

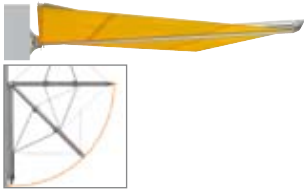

Fabrics

The special Sun silk fabric is dirt-, oil- and grease resistant, as well as permeable to air. It is lightfast, extremely tearproof, permanently water resistant and optimally durable with a high ultraviolet protection. And it impresses with the remarkable brightness of the designs.

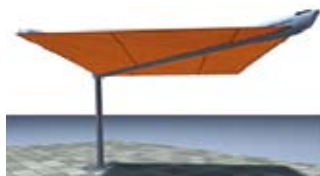

Wall installation (0 – 90°)

With wall or stand installation the boom awning is horizontally swivelable from 0 to 90° to each side (= 180°)

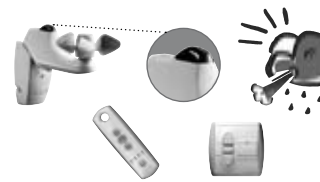

Stand installation

The stand construction is not included in the delivery!

Comfort package

Wind/sun sensor and option for rain sensor (can not be combined with a 3-D-wind sensor) Standard: radio motor Surcharge: radio motor with emergency crank handle

Lighting profile (optional)

Integrated lighting system with 3 halogen lights; up to 6 lights possible, incl. radio control and dimming function.

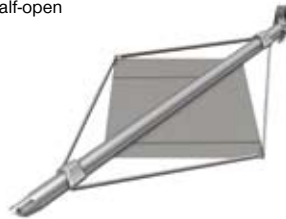

Construction

closed

half-open

open

Motorized sunshading system

with various advantages: Suitable for different shading situations. Precise horizontal inclination of the surface in the range of +/- 15°.

Elegant and convenient

Innovative design and high quality materials are combined in the new arabella boom. Whenshade is not required, the fabric is retracted and protected within the cassette.

Versatilely extendable

boom is available in 4 sizes. If the boom shading system is arranged in groups, larger surfaces can be shaded.

Unique atmosphere guaranteed

The built-in lighting guarantees evenings full of atmosphere (optional). The integrated 3-D-wind sensor offers a maximum of safety.
