Easy to operate exterior venetian blind with low-noise wind protection device; also suitable for large door and window openings up to a surface of 20 m².
EXTERIOR VENETIAN BLINDS
AF 80 Plus

DELICATE AND CLEVER

If you want it higher. The exterior venetian blind 80 mm flat slat for heights up to 6200 mm.

Sometimes the architecture asks for delicate lines. The answer is flexible slats. The slats convince with their high flexibility, so that they withstand even high wind loads and always regain their original form.

Product design
- Only electronic drive possible (elero JA Comfort)
- Omega ladder band fixation on each slat
- Only with bordered lift tape punchings
- Always with 90° turn (no 180° turn and no daylight deflection possible)
- Only possible with two additional wind protection devices on the outside (50 mm from the slat end on both sides)
- Only with lateral guide rails possible
- Cable tensioning with thread fitting M8 and special cable holder on the guide rails
- Weighted bottom rail
- No linkage possible
