

The HELLA logo is positioned in the top right corner. It features the word "HELLA" in a bold, black, sans-serif font. The letter "E" is stylized with three horizontal bars in yellow, red, and blue.

SOLAR SHADING WITH STYLE

Parasols & Sun Sails

STYLISH SUN PROTECTION IN VARIOUS SIZES

Functional and flexible

Be it a classic parasol, a large parasol or a modern sun sail – our solutions provide reliable protection from the sun and weather, as well as boasting high-quality design. The parasols impress with their flexibility and ease of use, while Sailss, with their elegant styling and large areas of shading, are particularly suitable for architecturally sophisticated environments. The solar shading solutions create a pleasant outdoor atmosphere – ideal for terraces and gardens as well as restaurant areas, schools, nurseries and playgrounds.

HIGHLIGHTS

- different shapes, sizes and fastenings
- large variety of colors and materials
- customised fabric printing
- UV protection (UPF 50+)
- particularly wind-resistant
- wide range of additional features

PARASOLS

Weatherproof outdoor areas

One

The high-quality One parasol impresses with its timeless design and functionality. It flexibly adapts to different styles and is ideal for gardens, terraces and pool areas.

Pure

Pure is an elegant entry-level model with a minimalist design, ideal for modern architecture. Thanks to its telescopic opening, this parasol offers increased ground clearance, while an integrated clamping lever ensures optimum fabric tension.

Jumbrella

Jumbrella is a versatile parasol for the restaurant industry and public areas. With its variety of equipment options, it can be flexibly adapted to technical requirements.

Jumbrella outSide

Jumbrella outSide is an elegant side-arm parasol, which provides visual lightness and places emphasis on the canopy. It boasts lockable handles and high-quality, keder-guided fabric membrane.

LARGE PARASOLS

For shading large areas

Jumbrella XL

The Jumbrella XL has been specially designed for shading large areas of between 25 and 49 square metres, meaning it is ideal for spacious outdoor areas. It provides reliable protection in the sun, rain and wind speeds of up to 110 km/h.

Magnum

The large Magnum parasol spans an impressive 37 to 140 square metres and can withstand winds of up to 130 km/h. It lends a majestic touch to any outdoor area, and the sturdy design guarantees maximum stability.

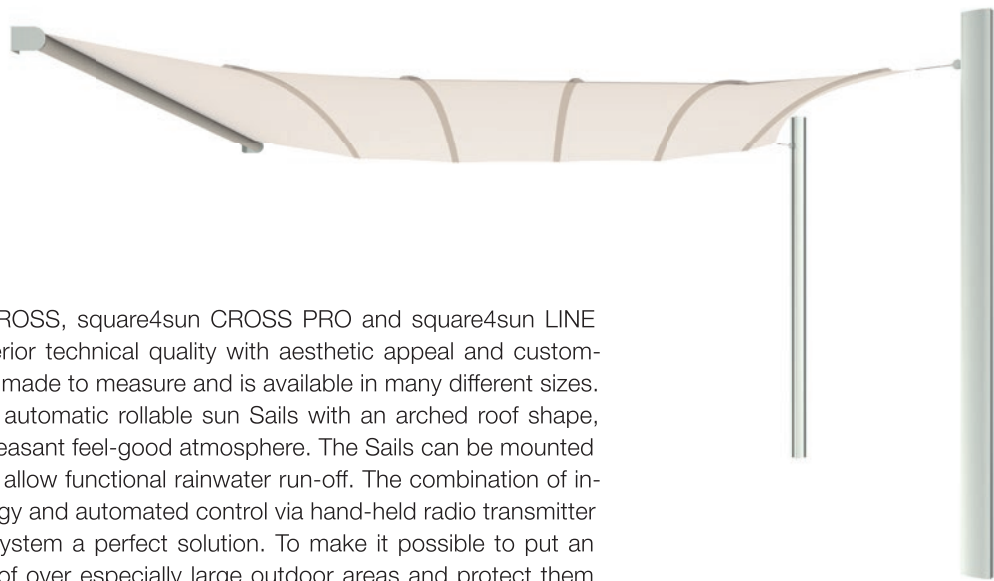

Largo

The generous Largo parasol provides shade in a range of sizes all the way up to 140 square metres, and stands out thanks to its unusual tulip-shaped design that opens upwards. Only the fabric and the cladding of the vertical column are visible – all technical components are elegantly concealed.

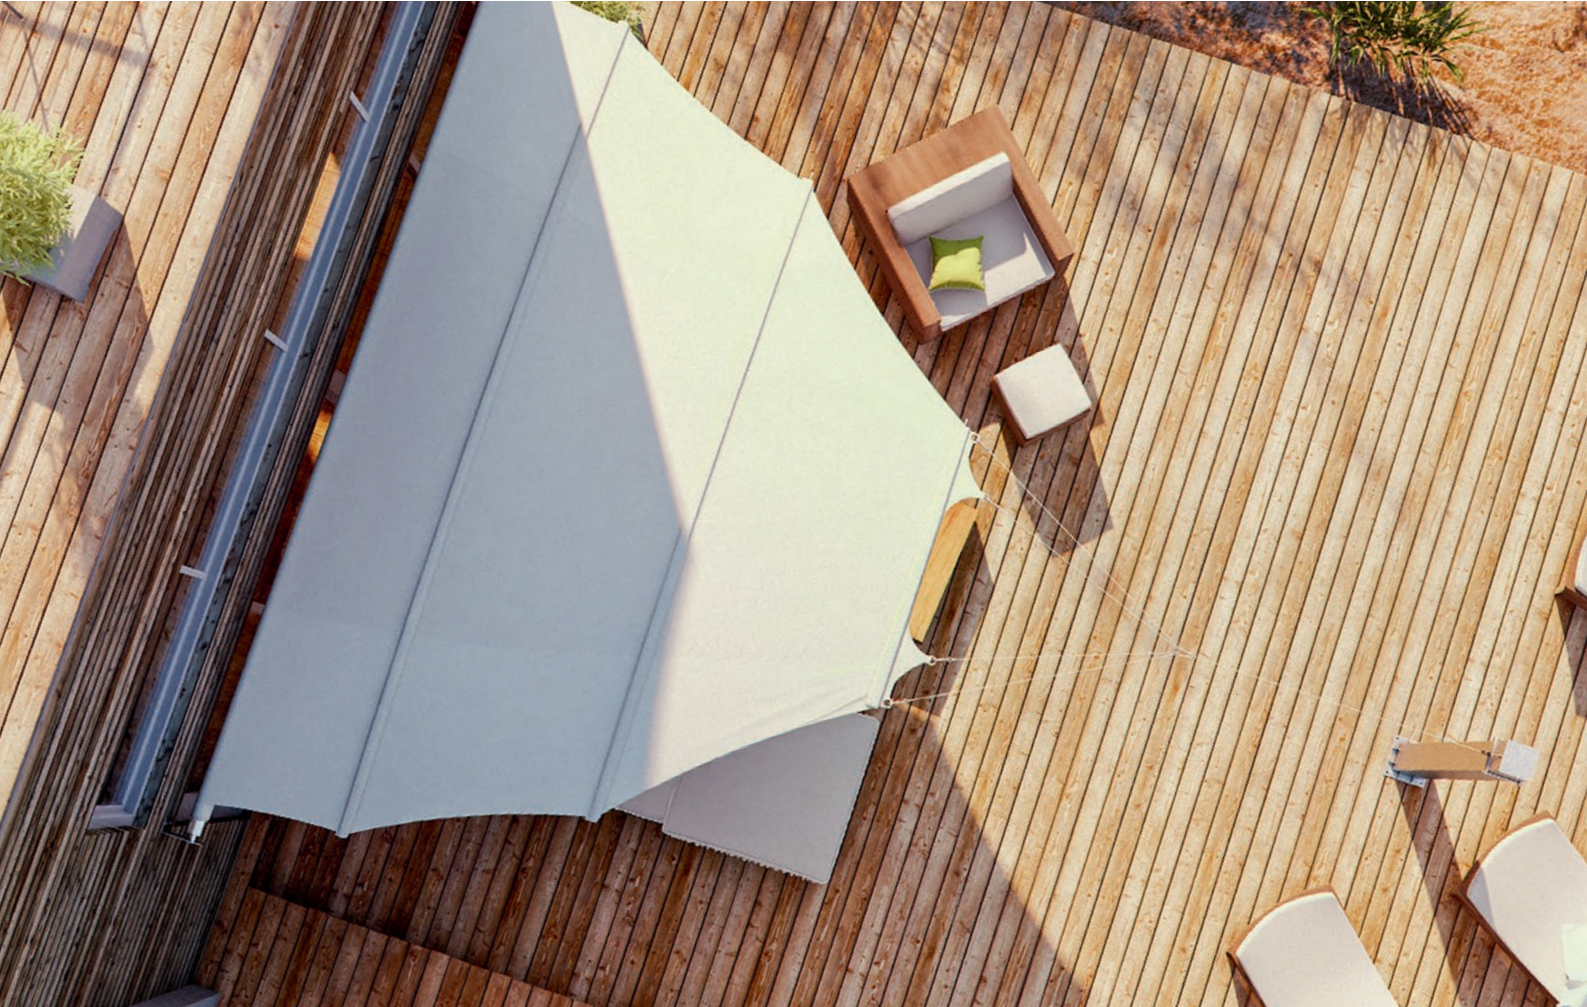

SUN SAILS

Customised design

C4sun

The C4sun elips4sun CROSS, square4sun CROSS PRO and square4sun LINE sun Sails combine superior technical quality with aesthetic appeal and customised design. Each sail is made to measure and is available in many different sizes. As the world's first fully automatic rollable sun Sails with an arched roof shape, the products create a pleasant feel-good atmosphere. The Sails can be mounted horizontally and can still allow functional rainwater run-off. The combination of innovative motor technology and automated control via hand-held radio transmitter or the app makes the system a perfect solution. To make it possible to put an aesthetically pleasing roof over especially large outdoor areas and protect them from the sun, all models are also available with double sun Sails units.
